

Title: Hospitalists on the Frontline: Preventing and Managing Thromboembolism Events
Date: March 31, 2015
Location: National Harbor, Maryland

Learning Objectives

After completing this activity, the participant should be better able to:

- Identify the pathophysiology and risk factors for NVAf, and stroke risk in the NVAf population
- Describe VTE pathophysiology, risk assessment, and the importance of prophylaxis and treatment
- Evaluate the pharmacologic difference among available oral anticoagulants (OACs) using efficacy and safety data

Target Audience

This initiative was designed for physicians, nurse practitioners, and physician assistants specializing in hospital medicine and internal medicine in the hospital setting. This initiative will also benefit other health care providers interested in the management of thrombosis with OACs.

Faculty

Charles V. Pollack Jr, MA, MD, FACEP, FAAEM, FAHA, FCPP
Professor, Department of Emergency Medicine
Perelman School of Medicine
University of Pennsylvania
Chairman, Department of Emergency Medicine
Pennsylvania Hospital
Philadelphia, Pennsylvania

Christian T. Ruff, MD, MPH
Investigator, TIMI Study Group
Associate Physician, Cardiovascular Division
Brigham and Women's Hospital
Assistant Professor of Medicine
Harvard Medical School
Boston, Massachusetts

Physician Accreditation Statement

Clinical and Patient Educators Association is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Physician Credit Designation

Clinical and Patient Educators Association designates this live activity for a maximum of 2.0 *AMA PRA Category 1 Credits*[™]. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Paradigm Medical Communications, LLC (Paradigm) is the educational partner for this activity.

Disclosure of Conflicts of Interest

CPEA and Paradigm require instructors, planners, managers and other individuals and their spouse/life partner who are in a position to control the content of this activity to disclose any real or apparent conflict of interest they may have as related to the content of this activity. All identified conflicts of interest are thoroughly vetted by CPEA for fair balance, scientific objectivity of studies mentioned in the materials or used as the basis for content, and appropriateness of patient care recommendations.

Commercial Support

This activity is supported by an educational grant from Boehringer Ingelheim and Daiichi Sankyo.
